Length w/o Roof	53 in	135 cm
Width w/Roof in Down Position	35 in	89 cm
Width w/o Roof	33 in	84 cm
Weight w/Roof	287 lb	129 kg
Weight w/o Roof	251 lb	113 kg
Holding Tank Capacity	38 gal	144 ltr

NOTE: All dimensions are subject to change due to environmental factors. All materials, including resin, pigments and additives used to make the plastic components as well as the plumbing components that come in contact with the fresh water are U.S. FDA food grade compliant.

The PLO1 - 1000 PolyLift Highrise Portable Restroom is designed for Highrise Construction Sites. Easily mobile on caster wheels, simply hooks up to a crane for highrise portability. An added feature of a urinal is conveniently located on the outside rear of the restroom. An optional roof is also available. Shipped fully assembled.

The PolyLift is easily lifted by crane and/or elevator. It features built-in handles, heavy-duty, lockable casters, and is just 33" wide to maximize transportability and maneuverability — even through tight doorways and freight elevators. The unit is built tough with a steel frame and designed for long-life durability. It has an interior toilet, external urinal, and the waste tank has a capacity of 38 gallons. For additional worker safety, the PolyLift can be equipped with an optional roof.

FREQUENTLY ASKED QUESTIONS

PolyLift

Q: Do I need a roof on the PolyLift?

A: It is not required to have a roof on the PolyLift. Our standard version does not include the roof. It needs to be added to your order if desired.

Q: How do I stop the PolyLift in place?

A: The large caster wheels have locking mechanisms on them. To stop the wheel from moving just push down with your foot to keep the wheels from rolling.

Q: What is the hole in the back of the unit for?

A: The hole on the back of the unit is in the middle of a trough, and that whole section is a urinal.

Q: Is that metal bar strong enough to lift the unit?

A: Yes, there is a metal skeleton inside the plastic that makes this unit very strong and durable. The metal lifting bar is attached to that skeleton and capable of lifting great weight.

CLEANING AND MAINTENANCE

Use a mild soap to clean all surfaces and component parts.

Minor scratches and abrasions can be lightly sanded or scrubbed with a mild abrasive cleaner (such as "Soft Scrub") that contains calcium carbonate, hypochlorate bleach, and detergents. Be sure to follow the cleaning product directions since these ingredients may cause hazardous gases when mixed with other chemicals. Rinse the cleaned areas and buff with a conventional wax.

Some light scratches may also be hidden by using an industrial hot air gun.

For a source of cleaning, deodorizing and paper products contact:

Prop 65

PolyJohn Corporation would like to inform any customers or end users that some products may contain chemicals listed in California's Safe Drinking Water & Toxic Enforcement Act of 1986. Commonly referred to as Proposition 65, this Act establishes a list of chemicals known by the State of California to present a risk of cancer, birth defects, or other reproductive harm.

Chemical exposure typically occurs through inhalation, ingestion, or adsorption. PolyJohn products are not intended to be used in these methods. PolyJohn Corporation cannot foresee all uses of their products (both intended and unintended uses) and as a result has opted to provide a general warning of known chemical presence.

The Proposition 65 chemical list can be found at <http://www.P65Warnings.ca.gov>

The following warnings are labels placed on affected products. If these labels are not present then they do not apply to that product.

WARNING: This product can expose you to chemicals including 4-Vinylcyclohexene which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

4-Vinylcyclohexene label above to be used any product made with Bayblend T85

WARNING: This product can expose you to chemicals including titanium dioxide, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Conflict Minerals Compliance Statement

Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and the Securities and Exchange Commission Rules adopted in connection therewith, require certain corporations to report the use of "Conflict Minerals" in the manufacture of their products. Generally, Conflict Minerals collectively refers to cassiterite, columbite-tantalite, gold, wolframite, or their derivatives, including tantalum, tin and tungsten, which originate from the Democratic Republic of the Congo or specified adjoining countries (referred to herein as "Covered Countries").

While we, as a privately held corporation, are not subject to the Conflict Minerals rules and reporting requirements, we understand that our customers may be, and we are committed to helping our customers comply with their reporting requirements. In order to determine if our manufactured products contain Conflict Minerals, we have asked our relevant suppliers, as of September 1, 2020, to ascertain their use of any Conflict Minerals in the materials they supply to us. Their responses demonstrate that our relevant suppliers (i) do not use Conflict Minerals in the materials they supply to us, (ii) have no reason to believe the Conflict Minerals they use may have originated in the Covered Countries, and/or (iii) reasonably believe that the Conflict Minerals they use are from recycled or scrap sources. Consequently, we can in turn represent that, to the best of our knowledge, our manufactured products either do not contain Conflict Minerals, or to the extent they may, such products are "DRC conflict free" as defined by paragraph (e)(4) of Section 1502.

We will continue to work with our key suppliers to ensure that we are able to identify the use of Conflict Minerals in our supply chain, and the representations made in this compliance statement remain accurate. To that end, we reserve the right to amend this statement at any time based on subsequent developments or information.

Should you have any questions or concerns regarding this statement, please do not hesitate to contact us.

WARRANTY

POLYLIFT™ HIGHRISE
PLO1 - 1000

RESTROOMS AND TOILETS

POLYJOHN PORTABLE RESTROOMS LIMITED 3 YEAR PRODUCT WARRANTY

PolyJohn Enterprises Corp. warrants the major plastic parts of its portable restrooms (plastic front, wall panels, roof, and tank) against any breakage or other problems that prevent the PolyJohn portable toilet from functioning in accordance with usual practices used in the portable toilet industry and in their intended manner. This warranty covers any damages in material or workmanship for a total period of 3 years (36 months). This warranty extends only to the original purchaser of the PolyJohn portable restroom. Proof of purchase, serial numbers, and photos will be required.

SINKS, TANKS, TRAILERS AND SANISTANDS

PolyJohn Enterprises warrants our sinks, tanks, trailers and sanistands from the date of purchase. Any misuse or abuse of our products or failure to properly follow recommended procedures shall void this warranty. The warranty is a 1 year limited warranty and a 90 day limited warranty for components thereof.

What is Not Covered By Warranty

This warranty does not cover damage or failure contributed to or caused by: Not following PolyJohn assembly procedures, unauthorized modification, acts of God, mishandling, misuse, use of incompatible solvents or other damaging chemicals, vandalism or accident. In no event shall PolyJohn be liable for labor costs or for incidental or consequential damages.

For full details on PolyJohn's warranty policy, and to view instructions for submitting a claim please visit <https://www.polyjohn.com/warranty/>.

Warranty Disclaimer

PolyJohn's terms of sale are FOB (Free on Board Shipping Point). Meaning buyer takes on responsibility once it leaves PolyJohn's shipping dock. The carrier is wholly responsible for any damage incurred during transit. Important notice: All concealed/non-notated damages must be reported within 5 business days of delivery (1st day is the day of delivery) as per the National Motor Freight Classification (NMFC) – Rule 300100 - for a damaged claim to be filed. Reporting after this time will void a claim.

In order to prevent warranty disputes follow these steps immediately when receiving your products:

Inspect the shipment immediately and insist that visible damages be indicated on your copy of the freight bill. If they are not noted on the freight bill it is very likely a claim will be denied.

Open the shipment if necessary, and inspect for any concealed damages.

If there are any damages that you cannot operate with you may refuse shipment. After you do this contact us immediately

Filing Process for Warranty

PolyJohn reserves the right to request inspection of products for verification of defect, which may include returning some or all of the parts with shipping paid for by the purchaser. Once the items have been returned, inspected, and PolyJohn is found at fault shipping costs will be reimbursed. You may contact PolyJohn to arrange for return shipping if desired.

To file your warranty claim follow these steps:

1. Go to polyjohn.com/warranty/
2. Fill out necessary contact information
3. Fill in invoice number, date of purchase, product, and product serial numbers.
4. Upload an images of affected products
5. Submit and someone will be in contact with you as soon as possible.

OUR MISSION STATEMENT

"PolyJohn is a family owned, state of the art, plastics manufacturing company dedicated to providing its employees with a work environment committed to excellence, and its customers with innovative products, services and technology that meet or exceed their requirements."
